

Instructions No. (1) for the year 2015

Health Conditions, Technical Requirements and Equipment Required to be Available in the
Public Pharmacy

Issued pursuant to Article (14/b) of the Pharmacy Institutions Licensing Regulation No. (75)
for the year 2015

Article (1)

These instructions shall be called the “ Health Conditions, Technical Requirements and Equipment Required to be Available in the Public Pharmacy Instructions for the year 2015 ” and shall come into effect from the date of their publication in the Official Gazette.

Article (2)

The internal design of the public pharmacy shall include the following:

- A. A designated area for receiving clients.
- B. A place in which medicine cabinets are arranged, elevated from the floor by no less than
(15 cm).
- C. A level for preparing pharmaceutical mixtures.
- D. A place for storing excess quantities of pharmacy supplies and products, either inside the
pharmacy or in a licensed warehouse for this purpose.

Article (3)

The following equipment must be available in the public pharmacy:

- A. A digital scale.
- B. A prescription table covered with a polished solid material.
- C. A glass surface thick enough to prepare ointments.
- D. Mortars and pestles.
- E. Glass measuring containers of different sizes, one of which must be graduated in
milliliters.
- F. Cork stoppers.
- G. A sink.
- H. A refrigerator for storing all medicines affected by normal room temperature.
- I. Any pharmaceutical guide.
- J. A thermometer.

Article (4)

The following health specifications must be available in the public pharmacy:

- A. Proper ventilation and lighting.
- B. A water cycle and drainage for used water in a sanitary manner, excluding pharmacies
located in buildings containing public facilities.
- C. A suitable container for collecting waste.
- D. A washable sink on all sides.

E. Exposed walls that are cleanable.

Article (5)

Medicines must be stored under suitable conditions in terms of humidity, light, and temperature, and storage places must be elevated from the ground.

Article (6)

Narcotic substances and psychotropic substances must be stored and prepared in accordance with the Drug and Pharmacy Law and the regulations issued pursuant thereto.

Article (7)

Records related to the pharmacy must be maintained.

Article (8)

A copy of the Drug and Pharmacy Law, regulations, and instructions issued pursuant thereto must be kept.

Article (9)

Employees in the public pharmacy must adhere to wearing a white coat during work.

Article (10)

Approval must be obtained from the Ministry for any amendment related to the public pharmacy licensing conditions.

Article (11)

Without prejudice to any stricter penalty stipulated in any legislation, anyone violating the provisions of these instructions shall be punished with the penalties stipulated under the applicable Drug and Pharmacy Law.

Article (12)

The instructions for specifications of public pharmacy sections, equipment, and technical and health specifications No. (1) for the year 2004 shall be repealed.
